

CAPABILITY STATEMENT

MiLanguages is a highly results-driven team that bridges the language gap. Our services include language training, online training, community immersion, in-country immersion, cultural training, and translation and testing.

Language Training

With a national and international network of professional linguists, MiLanguages can deliver language instruction — either one-on-one or in a group setting — in any government facility nationally in person or online. Programs focus on real-life speaking skills to prepare students to communicate in the new language.

Online Training

For time-challenged individuals who are not able to participate in classroom training, MiLanguages offers a full range of programs via our Interactive Distance Learning System. Programs may be started in the U.S. and continued anywhere in the world through online training.

Community Immersion

Custom-designed programs conducted in a domestic cultural community of the target language set the stage for students to only have contact with neighborhood native speakers and their teacher in the classroom. Each day of study includes a combination of language lessons and cultural excursions.

In-Country Immersion

Immersion training provides the ultimate language learning experience. Programs include a wide choice of up to 40 countries, travel options, accommodations, and customized language training for your specific interest.

Cultural Training

Cross-cultural training develops cultural awareness, motivating an understanding through unspoken language and cultural traits. From gift giving to unusual traditions, cross-cultural courses develop your foreign relations skills and give you an edge when what you say is as important as what you don't.

Translation and Testing

Translation projects include technical, manuals, academic, healthcare, legal, and personal. Recent projects have included word counts up to 100,000. Customized proficiency testing may include spoken and written components according to your specifications.

The American Council on Education's College Credit Recommendation Service (ACE CREDIT) has evaluated and recommended college credit for five MiLanguages courses (Arabic, French, Korean, Russian, and Spanish). More courses are being added. Please contact us for the most up-to-date list.

Languages

The art of international relations demands both oral communication skills and the understanding of foreign cultures. MiLanguages provides both. If there is a language that you do not find among the below list, please feel free to contact us directly and speak to one of our consultants.
