LANGUAGE TRAINING

With a national and international network of professional linguists, MiLanguages can deliver language instruction (either one-on-one or in a group setting) in any facility nationally in person or online. Programs focus on real-life speaking skills to prepare students to communicate in the new language.

ONLINE TRAINING

For time-challenged individuals who are not able to participate in classroom training, MiLanguages offers a full range of programs via our Interactive Distance Learning System. Programs may be started in the U.S. and continued anywhere in the world through online training.

CULTURAL TRAINING

Cross-cultural training develops cultural awareness, motivating an understanding through unspoken language and cultural traits. From gift giving to unusual traditions, cross-cultural courses develop your foreign relations skills and give you an edge when what you say is as important as what you don't.

TRANSLATION & TESTING

Translation projects include technical, academic, medical, legal, and personal documents. Recent translations have consisted of up to 100,000 words. Customized proficiency testing may incorporate spoken and written components according to your specifications.

COMMUNITY IMMERSION

Custom-designed programs conducted in a domestic cultural community of the target language set the stage for students to only have contact with neighborhood native speakers and their teacher in the classroom. Each day of study includes a combination of language lessons and cultural excursions.

IN-COUNTRY IMMERSION

Immersion training provides the ultimate language learning experience. Programs include a wide choice of up to 40 countries, travel options, accommodations, and customized language training for your specific interest.
