IMMERSIONS BUILD BRIDGES TO A NEW WORLD

As students leave academia and move into the business world, fluency in a foreign language coupled with a **rich understanding of unspoken cultural traditions** not only deepens them on a personal level, but provides a **competitive edge** over other job candidates.

MiLanguages specializes in **customized immersion programs** that are tailored to an institution's specific student population and individual needs. More than **100 different languages** are available for study domestically or in more than **40 countries** worldwide.

IN-COUNTRY IMMERSION

In-country immersion programs provide the ultimate language learning experience, bringing to life all that students have learned in class and providing valuable exposure to the target language and the host country.

Thanks to our proven track record of organizing immersions, MiLanguages has developed an extensive network of overseas partnering institutions, all of which are fully vetted and academically accredited. This network allows us to plan and deliver language and cultural training in-country. Programs include a wide choice of countries, travel options, accommodations, and customized language training.

COMMUNITY IMMERSION

For the most authentic language and cultural experience between Malibu and Miami, choose MiLanguages' proprietary Community Immersions. Considered "the next best thing to being there," community immersions provide an opportunity to learn language and culture in a domestic setting.

MiLanguages has tapped into ethnic communities across this great melting pot of ours to structure creative programs that replicate the deep cultural experiences usually reserved for more exotic spots around the globe. Whether in Little Italy, Chinatown, or countless other ethnically diverse centers, students speak, interact, and live like locals without the time or expense associated with crossing international borders.

See reverse side for language and community options.
