

## A Results-driven Team

### THAT BRIDGES THE LANGUAGE GAP

MiLanguages specializes in providing foreign language and cultural awareness training to public and private sector clients worldwide. Established in September 2004, MiLanguages uses the Communicative Approach for teaching more than 100 foreign languages to all levels of students, with special expertise working with government personnel and lesser-studied languages. MiLanguages currently delivers over 400,000 hours of training in locations throughout the USA and in more than 40 countries worldwide.

### MiLANGUAGES : Mission

MiLanguages is a results-driven company, founded to provide the highest-quality foreign language and cultural orientation training. Our mission is to:

- Bring to each task the strength of our expertise in the areas of program management, curriculum and instruction.
- Provide the highest-quality educational programs with depth of capability, especially in the area of lesser-studied languages.
- Support our clients with a full range of language services, including translation.
- Strive at all time to be wherever our clients need us, either live or online, to supply whatever language the mission requires and to do so in accordance with the client's statement of objectives.
- Foster the continuing educational development of each of our learners in the belief that language and cultural literacy will build bridges to global stability and national security.

# Clients

## GOVERNMENT

The MiLanguages management team comes from industry partners or other established contractors that have been providing foreign language and cultural training to government personnel throughout the world. Our team has the organization, management, technical expertise, experience, and past performance history to accomplish a wide range of the tasks required by government agencies.

MiLanguages Semi-Annual Corporate Meeting in Seattle

## CORPORATIONS

Business, marketing and international relations require clear and concise communication to deliver results and reduce language faux pas. MiLanguages' students acquire precise pronunciation and the latest idioms and expressions from day one through exposure to native-speaking teachers. We create an environment conducive to quick learning and preparing business professionals for a global experience.

## COLLEGES AND UNIVERSITIES

Using our extensive network of domestic and international contacts, MiLanguages provides services to the university community by organizing customized in-country and community immersions. Our programs are a perfect way for students to come into direct contact with the host language and cultural norms.
