FIND A NEW WORLD IN YOUR BACKYARD

For the most authentic language and cultural experience between Malibu and Miami, choose MiLanguages' community immersions. Considered "the next best thing to being there," community immersions provide you with an opportunity to learn the culture and language of your choice within the safe confines of our American homeland.

MiLanguages has tapped into ethnic communities across this great melting pot of ours to structure creative programs that replicate the deep cultural experiences usually reserved for more exotic spots around the globe. Whether in Little Italy, Chinatown, or countless other ethnically diverse centers, you will speak, interact, and live like a local without the time or expense associated with crossing international borders.

These intensive immersions not only enrich any foreign language training, but also provide a 24/7 lifestyle experience. Meet people in the local language community. Visit shops and nearby cultural institutions. Order and enjoy a meal at an ethnic eatery.

Maintaining contact only with native speakers of the language in the neighborhood and your own teacher in the classroom serves to deeply embed not only the language, but also the culture and customs.
