

Learn a New Language

BUILD A NEW BRIDGE

From widely-spoken languages to the different variations and dialects of a major language, MiLanguages routinely provides professional language training in over 100 languages worldwide. With more than 400 native-proficient instructors, delivering over 400,000 hours of instruction per year, our programs are based on a custom-designed curriculum to meet your specific needs, either on-site or online. Programs focus on real-life speaking skills to prepare you to communicate in the new language.

OUR METHOD

The Communicative Approach is the cornerstone of our language instruction, and it is a fast, effective way to learn a new language. With the instructor's motivation, enthusiasm, and facilitation, the participant learns 100% of the time, spending the majority of class time using one or more of the communication skills. Constructive feedback to our students is key to the success of our programs.

OUR INSTRUCTORS

Providing top-quality instruction is MiLanguages' primary goal. Our instructors hold Bachelor degrees or the foreign equivalent and complete a rigorous vetting process. All instructors are required to be independently certified for proficiency in both English and the language they teach. Before entering the classroom, instructors must meet all hiring criteria and complete MiLanguages' proprietary Pre-assignment Training in the Communicative Approach.

QUALITY CONTROL

To ensure exceptional quality, the MiLanguages staff performs inspection tours of all fixed-post program sites at least twice a year to observe knowledge transfer, provide constructive feedback, and deliver performance coaching to local instructors. We provide a complete quality control plan for all aspects of program delivery and staff on-the-job performance.

LANGUAGES

We offer customized instruction in more than 100 current world languages, including low density languages such as those required by the Department of Defense (e.g. Arabic, Chinese, Pashto, Dari, Russian, Farsi, Korean, Indonesian, Tagalog, Thai, Urdu). Here is a sample list of the languages that we teach. If you do not see a language that you are looking for, please contact us.
